THIS IS UNEVALUATED INFORMATION

ILLEGIB

ILLEGIB

1. Location:

In the southwestern section of Saratov (46°03'E/51°33'N), Oblast, on the northern bank of the Volga river, separated from the river by tracks, and northeast of the Uleshi railroad station.

ILLEGIB

2. Installations:

The official designation of the depot is "Uleshovskaya-
"Stabasa". It covers an area of 80 meters, part of which
the slanting Volga bank. It was equally built up.
Twenty of a total of sixty tanks were destroyed during the war.
half were being reconstructed. The construction were sche-
the depot is equipped with two modern pumping and
installations one of which, of American origin, arrived
in the summer of 1948.
A tank cars was between the tracks southeast of
filling and pumping installations and an oil pipe
river were also located here. The oil was shipped
in the summer and by railroad during the winter.
by the municipal power plant. For sketch see

3. Work force:

About 900 laborers. The number of shifts varied up to three, according to the amount of work and the arrival of tankers.

4. Pure

The
in

llation for the
were supplied by
Idol (a high-grade
only for storage.
